Green Flag Award, 2025

Broadhempston Primary School

Award Level: Green Flag

Focus topics:

Your greatest overall success:

We love that your pupils have taken their great work beyond the school gates and into their homes and local community. This is a very challenging aspect of the Eco-Schools programme, so your Eco-Committee should be very proud of their successes in this area! It is great to hear that staff were able to visit your link school in Uganda, this truly adds another level of depth to the experiences you can offer! Well done to all involved in this!

We also loved...

- The variety of plans included in your Action Plan. It is especially lovely to read the plans in your Global Citizenship topic (with many clearly being very successful as mentioned above!). Fundraising, linking with a school in Uganda and taking part in the Super Kind Project are all brilliant ways to engage the wider school community whilst leaving a lasting impression on all involved.
- Integrating environmental issues across multiple subjects ensures that sustainability becomes a natural part of students' learning rather than just a standalone topic. By weaving eco-awareness into at least three different subjects, you're helping students see the real-world connections between their education and the environment. Thank you for uploading some brilliant evidence to support your application!
- It was great to read that completing the Environmental Review got pupils thinking about environmental issues that hadn't yet been tackled in their school. Well done for considering other ways to tackle issues like transport, given how children travel to your site. Consider instead advocating for road safety or raising awareness of the impact transport can have within the wider community.
- Your acrostic Eco-Code is a thoughtful summary of the environmental ethos reflected throughout your application.

Next year, why not try...

We loved assessing your Eco-Schools application. It was so impressive that we're surprised you didn't aim for a Merit or Distinction! Next year, check out the criteria for these awards—we're confident you could achieve one. Keep up the great work!
